RURAL ELECTRIFICATION ADMINISTRATION

PROGRESS BULLETIN  
GENERAL - NO. 11

SEPTEMBER 22, 1937  
NEW ALLOTMENTS

REA today announced the following allotments:

ALABAMA 8021B Cherokee

Loy J. Davis, Project Supt.,  
Cherokee County Elec. Memb. Corp.,  
Center, Alabama

Additional allotment of \$188,000 to add 169 miles of line and about 724 customers to its rural electrification system. The cooperative now has 226 miles of line to serve nearly 1,000 customers in Cherokee and DeKalb Counties under construction, with an earlier REA loan of \$235,000. Mr. Davis, the project superintendent, is now in Washington attending an REA training course for superintendents. This project buys power at wholesale from TVA.

INDIANA 8092 Jackson

E. H. Vehslaga, President,  
Jackson County Rural Electric Memb.  
Corp., Seymour, Indiana

Partial allotment of \$100,000 to start construction of a 245-mile project in Jackson and Jennings Counties to serve 1,147 signed customers. The source of power will probably be the Indiana Public Service Co., at a wholesale rate averaging 1.24 cents per kwh.

MISSOURI 8020W Marion

Paul G. Lehenbauer, Project Supt.,  
Mo. Rural Elec. Coop. Assn.,  
Palmyra, Missouri

Allotment of \$5,000 to be re-lent to finance individual or group installations of wiring and plumbing along the new lines. With an earlier REA loan of \$370,000, the cooperative is now building a 320-mile system to serve about 1,000 customers in Marion, Shelby, Monroe, Ralls and Lewis Counties. The first unit, 164 miles, is already in operation.

NORTH DAKOTA 8008B Benson:

Palmer Stadum, Project Supt.,  
Baker Elec. Cooperative, Inc.,  
Baker, North Dakota

Additional allotment of \$13,200 will permit the Cooperative to add 12 miles of line to its system to serve 34 additional Pierce County customers. It is using an earlier \$60,000 loan to build about 49 miles of line to serve about 200 customers in Benson and Pierce Counties.

SOUTH CAROLINA 8016 York

Cooperative being formed in  
York County, South Carolina

Allotment of \$75,000 to be used in building up to 100 miles of line to serve about 400 customers. If the cooperative chooses, the money will actually be lent to the State Rural Electrification Authority, which is already building over 800 miles of line with REA loans. The engineer for the State Authority is U. X. Cullum, Columbia.

SOUTH DAKOTA 8007B Lincoln

Harold S. Swanson, Project Supt.,  
Lincoln-Union Electric Company,  
Alcester, S. D.

Additional allotment of \$16,000 to meet increased costs. The earlier loan of \$208,000 was found inadequate to meet all the project costs for 192 miles of line to serve 500 customers in Lincoln and Union Counties. In addition, \$20,000 has been allotted to finance wiring and plumbing installations on this project.

WISCONSIN 8035C Richland

Herbert A. Stofen, Project Supt.,  
The Richland Coop. Electric Assn.,  
Richland Center, Wisconsin

Additional allotment of \$3,900 to permit the Cooperative to purchase necessary tools, materials and operating equipment. Earlier loans from REA have financed construction of nearly 470 miles of line to serve 1,176 customers in Richland, Crawford and Vernon Counties. Previous loans total \$409,000.

ELECTRIC HOME AND FARM AUTHORITY  
WASHINGTON

September 16, 1937

Electric Home and Farm Authority today announced that contracts had been closed with the Chillicothe Municipal Utilities, Chillicothe, Missouri, and the City of Anderson, Anderson, Indiana. The contracts provide that Electric Home and Farm Authority and the utilities will cooperate in financing the sale of electrical appliances for use by consumers located on the utilities' power lines.
